Kaustubh Bhatt

Frontend Developer | React.js | UI Engineer

💌 kstbhbhatt@gmail.com | 📞 8351070350 | 🔗 LinkedIn | 🌐 Portfolio

Summary

Results-driven Frontend Developer with 3 years of experience building scalable, responsive web applications. Skilled in React.js, JavaScript, and UI/UX principles, with a strong focus on accessibility, performance optimization, and intuitive user experiences. Adept at collaborating with cross-functional teams to deliver high-quality products. Passionate about innovation, continuous learning, and leveraging cutting-edge technologies to solve complex problems.

Experience

Deloitte Digital Sept 2022 – Present

Analyst (Frontend Developer)

Bangalore

- Developed accessible and responsive UI components for B2C websites, ensuring a seamless cross-device experience.
- Designed and implemented Cart and Pricing Discount UI features for a B2B commerce application, improving user interaction clarity.
- Led a UX/UI revamp using React-table, enhancing usability by improving readability and interaction design.
- Refactored and optimized **React components**, increasing maintainability and improving onboarding for new developers.
- Created **custom tooltips and button components** for a React-table migration, improving data presentation.
- Resolved SIT/UAT defects and provided on-site UAT support, ensuring a smooth product launch.
- Mentored junior developers, promoting best practices in frontend development and UI consistency.
- Developed the **frontend UI for a PoC DevOps tool** using React.js, integrating ChatGPT & GenAI for real-time DevOps insights and automation.
- Designed and implemented interactive UI components for Vision AI, allowing users to visualize and refine AI-generated code from hand-drawn architecture sketches.

Skills

- Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML, CSS
- Performance & Optimization: Lazy loading, code splitting, accessibility enhancements
- State Management: Context API
- Version Control: Git, GitHub

Projects

Pokedex App: A Pokémon search tool that allows users to search and view detailed Pokémon data, including abilities, stats, and types.

- Built using React.js and REST APIs to fetch real-time Pokémon data.
- Deployed on GitHub Pages for public access, showcasing expertise in React and API integration.

Live Demo: Pokedex Project

Education

National Institute of Technology, Hamirpur

B.Tech in Electrical Engineering (2018 – 2022) | CGPA: 8.77

Awards & Recognitions

- Spot Award: Excellence in CSS Quiz.
- Applause Award: Recognized for outstanding contributions at Deloitte Digital.
- Outstanding Award: Awarded for impactful contributions to major projects.
