

SUMMARY

Software Engineer with 4 years of experience engineering scalable, responsive, and accessible web applications using React.js, Angular, and modern JavaScript. Specialized in application maintenance, performance optimization, and rigorous defect triage to deliver seamless cross-device user experiences. Proven ability to lead frontend teams, stabilize complex existing codebases, and drive cross-functional feature delivery.

SKILLS

- **Languages & Frameworks:** React.js, Angular, Next.js, JavaScript (ES6+), TypeScript
- **UI & Styling:** Tailwind CSS, HTML5, CSS3
- **Performance & Optimization:** Lazy loading, code splitting, accessibility enhancements
- **State Management:** Context API
- **Tools & Workflows:** Git, JIRA, Confluence, REST API Integration

EXPERIENCE

- Deloitte

Software Engineer II

May 2025 - Present

Bengaluru, Karnataka

- **Achieved a 15% improvement in system scalability and workflow efficiency** by architecting responsive Angular UI components and complex business logic for a high-traffic B2B commerce application
 - **Decreased cart abandonment and minimized transaction friction** by streamlining checkout functionality through the integration of a secure payment workflow.
 - **Restored system stability and reduced critical UI/API bugs by 25%** by spearheading rigorous frontend defect triage, root-cause analysis, and rapid bug resolution.
 - **Elevated overall code quality and sprint velocity** by mentoring and directing an 8+ member frontend team, ensuring consistent feature delivery through strict code reviews and Angular best practices.
 - **Increased deployment success rate by 65%** by driving cross-functional collaboration and alignment between QA, backend, and product teams.
- Front End Developer (Analyst)

Sep 2022 - May 2025

- **Minimized production downtime by 25% and resolved 90+ critical defects** by directing a 5-developer team and serving as the primary technical escalation point during critical on-site B2B product launches.
 - **Reduced developer onboarding time by 45% and accelerated new feature delivery** by engineering a config-driven React Table using TanStack Table, successfully modernizing 50% of the platform’s UI.
 - **Increased user engagement by 30% and reduced UI development effort by 50%** by leading comprehensive UI redesign initiatives and implementing a reusable, cross-team component library.
 - **Reduced initial rendering time by 2 seconds** by optimizing frontend load performance via lazy loading and extensive code refactoring within core B2B commerce modules (Cart and Pricing).

PROJECTS

- **Ubuntu App (Jun 2025): Showcased advanced React.js and complex state management** ([Live Preview](#)) by engineering an interactive Ubuntu-themed portfolio web app simulating a desktop environment with draggable, resizable window components.
- **Pokedex App (Jun 2024): Enabled real-time Pokémon data search (abilities, stats, types)**([Live Demo](#)) by developing a highly responsive web application using React.js and REST APIs.
- **Demonstrated API integration proficiency:** by deploying the application on GitHub Pages for a Live Demo.

EDUCATION

- National Institute of Technology (NIT), Hamirpur

B.Tech in Electrical Engineering; CGPA: 8.77

Jul 2018 - May 2022

Hamirpur, Himachal Pradesh

ACHIEVEMENTS & HONOURS

- **Applause Award:** Recognized for outstanding contributions at Deloitte Digital. (2024,25)
- **Spot Award:** Excellence in CSS Quiz (2024)
- **Outstanding Award:** Awarded for impactful contributions to major projects (2024)
